WORK EXPERIENCE

Senior Associate Technology L1

Publicis Groupe

📅 10/2025 - current 📍 Gurugram, Haryana, India

- Engineered a cutting-edge FinTech solution using Java, Spring Boot, and AWS, enhancing processing speed by 30%.

Lead Software Engineer

Persistent Systems

📅 07/2023 - 09/2025 📍 Gurgaon, Haryana

- Architected and developed a highly scalable enterprise-grade PaaS platform using Java, Spring Boot, and microservices architecture on AWS and Azure, supporting large-scale applications with 50% enhanced scalability and 99.9% reliability.
- Upgraded IBM Cloud DB2 Warehouse utilizing Kubernetes Operators and Golang, resulting in a 40% boost in performance and reducing downtime by 25%.
- Established a secure database environment, achieved a compliance rate of 100%. Developed CME using Azure, AWS and Postgres, which increases security compliance by 40%.

Senior Software Engineer

Yellow.ai

📅 09/2022 - 03/2023 📍 Bangalore, Karnataka

- Architected enterprise-grade distributed chatbot systems for DANA and FEG platforms using Java, Spring, React, and microservices, improving system reliability by 40% and reducing latency by 30% while handling 100K+ concurrent users.
- Created a robust backend for a chatbot leveraging Python, Java, AWS, MongoDB, resulting in a 40% increase in user engagement over three months.

Senior Software Engineer

Fraazo

CAREER OBJECTIVE

Results-driven Lead Software Engineer with 6+ years of experience architecting and developing highly scalable, enterprise-grade applications using Java, Python, and Golang. Proven track record of delivering distributed systems that handle large-scale volumes while leading cross-functional teams and mentoring engineers. Seeking to leverage deep expertise in concurrent programming and system architecture to contribute to innovative technology solutions.

EDUCATION

Bachelor of Technology
Information Technology

National Institute of Technology, Kurukshetra

📅 07/2014 - 07/2018
📍 Kurukshetra, Haryana, India

SKILLS

Programming & Frameworks

- Java
- Spring Boot & Spring Framework
- Microservices Architecture & REST API
- JavaScript, Python, Golang
- Frontend - React, HTML, CSS

Enterprise & Distributed Systems

📅 01/2022 - 09/2022 📍 Mumbai, IN

- Developed and deployed scalable, low-latency backend services using Java, Spring Boot, and microservices architecture on AWS, serving 50,000+ daily active users with 30% improved response times and 99.9% uptime.
- Implemented dashboard features for daily activity updates and report generation, increasing operational efficiency by 25%.
- Enhanced system architecture through Kafka, Docker, Kubernetes, resulting in a 25% boost in reliability and reduced latency.

Software Engineer

Paxcom India - a Paymentus Company

📅 11/2020 - 12/2021 📍 Delhi, India

- Created a robust chatbot software using Java, React, Docker and MongoDB, achieving 99% uptime and processing 10,000 queries per day. Enhanced accuracy and reducing latency by 25%.
- Designed and implemented REST API ecosystems and data caching strategies using Redis, reducing database load by 60% and improving application performance for high-volume transaction processing.
- Engineered a dental booking chatbot backend utilizing SpringBoot and MongoDB, enhancing user engagement and achieving a 30% increase in appointment bookings.

Freelancer Software Developer

Freelancer

📅 01/2020 - 10/2020 📍 Ajmer, Rajasthan, India

- Engineered Cosmos and Starport based 12 decentralized Web3 applications using Python, Java, and Postgres, enhancing user engagement by 30%.
- Engineered a multi-currency payment system supporting over 10 cryptocurrencies, increasing transaction efficiency by 25%.

Full Stack Developer

Hyperstate Technologies Private Limited

📅 04/2019 - 07/2019 📍 Pune, Maharashtra, India

- Designed and deployed Kappa, a multi-platform analytics dashboard using Java and React, revolutionizing data accessibility for over 50 products.
- Built Lubdub, a Chatbot development studio platform using API management, testing, and deployment. Enhancing user engagement by 25% with Java, Golang, Kubernetes, and React.

- Distributed Systems Design
- System Architecture (HLD/LLD)
- Performance Optimization
- Scalability Engineering

Data & Caching

- Database Design & Optimization
- MongoDB, DynamoDB, Cassandra
- PostgreSQL, MySQL
- Redis, Kafka

Security & Reliability

- Application Security
- Cybersecurity Principles
- SIEM Tools

Cloud Stack

- AWS - Networking, Serverless, Storage, EKS/ECS/ECR, Databases
- GCP - Networking, Databases, BigQuery, Storage, AIML
- Azure - Computing, Networking, Storage, Databases, KeyVault

Logging & Monitoring

- Grafana & Prometheus
- ElasticSearch

Software Development Practices

- TDD and DDD

DevOps & Infrastructure

- Docker & Kubernetes
- GitHub, GitLab, GitHub Actions
- Hashicorp Vault

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (09/2024 - Present)
- Salesforce Certified Platform Developer I (08/2024 - Present)
- Google Cybersecurity (02/2024 - Present)
- Deep Learning Specialization - DeepLearning.AI (2022 - Present)
